The size of each string section is at the discretion of the orchestra. Number of string parts supplied is as follows: 87665. Parts are generally sent out 2-3 weeks prior to the performance. If you require your parts earlier, please let us know.

A videocassette and a CD are also supplied strictly for the use of the conductor and technical crew in the preparation of the production. It is very helpful if the conductor and technical crew have seen the video prior to the rehearsal.

Please arrange time before the rehearsal (one hour) for the director of the show to meet with the conductor.

Following your performance, please return all parts, video and CD to Platypus Theatre or forward everything to the next orchestra on the "Parts List" enclosed with the music.
